Appl. No. 09/991,209 Amdt. dated August 16, 2004 Reply to Office action of February 17, 2004

Page 2 In the Specification:

Please amend the paragraph at page 17, lines 23-27, as follows:

The isolation of the polynucleotides, e.g., FAE1 and xylanase of the invention may be accomplished by a number of techniques. See, for example, copending US-application 08/952,445 US Patent 6,368,833 which describes the isolation of a FAE from Aspergillus niger, and copending US application 09/658,772 US Patent 6,555,335 which describes the isolation of a xylanase from T. reesei.
